

**BARNSTEAD SCHOOL DISTRICT
Board Committees**

The Barnstead School Board may establish and designate sub-committees to facilitate the fulfillment of the Board's duties in the functioning of the Barnstead School District. The composition of these committees will, whenever feasible and practicable, be two members of the School Board. Staff, Administration, parents and/or citizens may be asked to participate in a Board Committee's purpose/scope after approval by the School Board.

The committees may include standing committees as listed below, and additional committees as needs are determined.

- Finance Committee
- Negotiations Committee
- Personnel Committee
- Strategic Planning Committee
- Policy/Bylaw Committee
- Legislative Committee
- Building and Grounds Committee
- Space Needs Committee

Each committee will prepare a Statement of Purpose and Function subject to the approval of the School Board. These statements will be added as an addendum to the Board's Policies & Bylaws. The statements will be reviewed and amended by vote of the Board, as the need is determined.

No committee will be authorized to take any action independent of the Board's approval, but rather will make recommendations to the Board as an action item for vote by the Board.

Assignments to committees will be made as soon after the annual organizational meeting as is feasible.
