

**BARNSTEAD ELEMENTARY SCHOOL  
Memorials**

It is the Policy of the Barnstead School District to acknowledge tragic losses in the school community. Such acknowledgement may take the form of recognition ceremonies to which the school and greater Barnstead community are invited.

Recognizing that the school building, the grounds, and the general facilities belong to the entire community, the District does not advocate the renaming of school property to recognize a personal or community loss. The District does, however, promote alternative memorials, such as the endowment of a scholarship, the planting of a tree, or the creation of a library shelf to memorialize a loved one.

The final determination regarding a memorial rests exclusively with the Barnstead School Board.
