

BARNSTEAD SCHOOL DISTRICT
Instructional Goals

The Board reviewed and accepted the proposed instructional priorities. These indicate work being done in the development of basic skills 1-8 in mathematics and language arts during the next year. Basic skills will be identified in the areas of energy and science with social studies following in the third year. Work will be done to develop, implement, and evaluate individualized education programs. Emphasis will be placed on reading and writing in the content areas as well as alternative programs for the disenchanted learner and the gifted student.
